

TRIPLE & TROPHY KIT

WIRING GUIDE FOR ROGUE DRIVING LIGHTS

Instructions

Before proceeding, refer to the Fast Fit Wiring Harness Installation Guide supplied with your kit.

This guide shows how to connect the included High Beam Splitter allowing both harnesses to share a single high beam trigger source.

1 **Harness 1**
Center light(s)

2 **Harness 2**
Outer lights

Kit Contents

Triple Pack

- 1x Single Output Fast Fit Harness
- 1x Dual Output Fast Fit Harness
- 1x High Beam Splitter

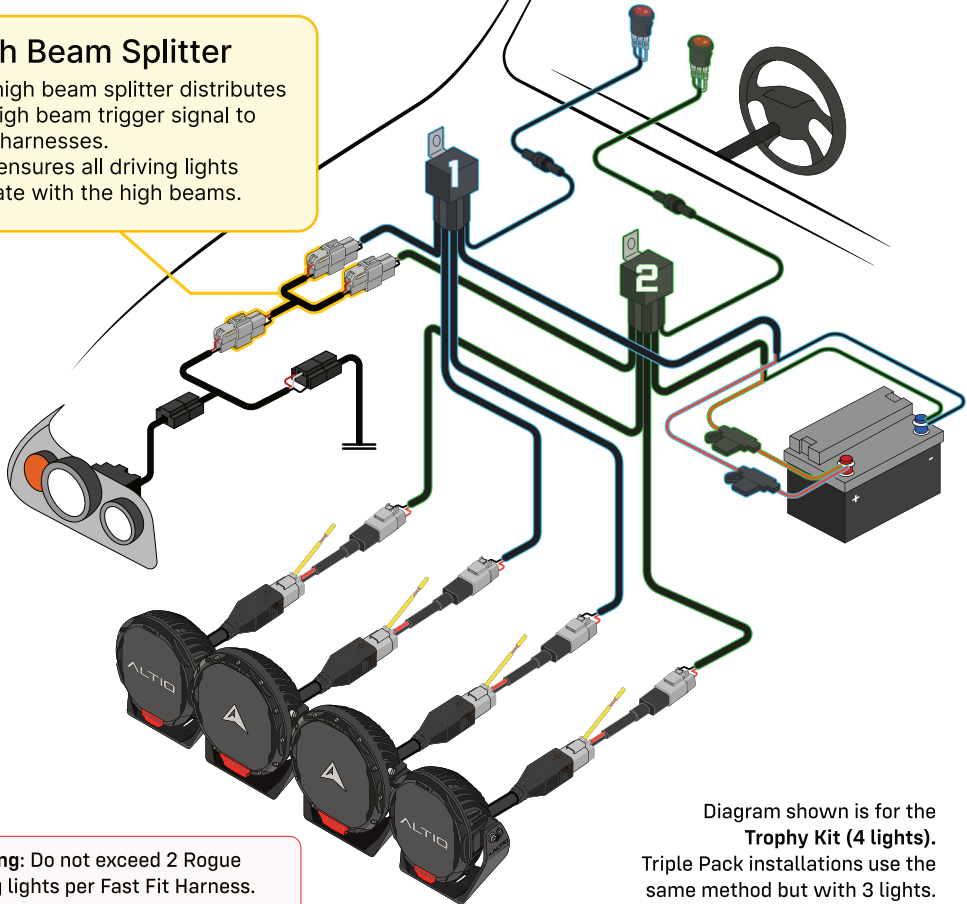

Trophy Kit

- 2x Dual Output Fast Fit Harness
- 1x High Beam Splitter

High Beam Splitter

The high beam splitter distributes the high beam trigger signal to both harnesses.

This ensures all driving lights operate with the high beams.

Warning: Do not exceed 2 Rogue driving lights per Fast Fit Harness. Overheating, component damage and warranty void may result.

Diagram shown is for the **Trophy Kit (4 lights)**. Triple Pack installations use the same method but with 3 lights.
